1. Background information

The report from the Commission to the European Parliament and the Council on the implementation of Directive 2003/109/EC concerning the status of third-country nationals who are long-term residents of 29 March 2019 (COM(2019) 161 final) concluded that “Since 2011, the implementation state of play of the long-term residents Directive across the EU has improved, also thanks to the numerous infringement cases launched by the Commission and judgements issued by the CJEU. However, some outstanding issues continue to undermine the full achievement of the Directive’s main objectives, which are to: constitute a genuine instrument for the integration of third-country nationals who are settled on a long-term basis in the Member States; and contribute to the effective attainment of an internal market. ...” and that “most Member States have not actively promoted the use of the EU LTR status and continue to almost exclusively issue national long-term residence permits unless third-

country nationals explicitly ask for the EU permit. [...]” Adding that “the way that most Member States have implemented the intra-EU mobility provisions of the Directive has not really contributed to the attainment of the EU internal market.” EMN Luxembourg had been raising the issue that EMN should conduct a study to determine the state of play of the long-term residence permit in the EU as the report of the Commission is based on a study conducted by an external contractor throughout the period 2014-2016, which focused on the transposition of the Directive rather than on its practical implementation. During the 24th EMN Steering Board Meeting that took place in Brussels on 21 October 2019, EMN Luxembourg was entrusted to do an EMN Inform on the State of Play of the EU LTR. In order to obtain the information EMN Luxembourg will launch ad-hoc queries on the subject. This ad-hoc query deals with **Promotion and information activities on the LTR status.**

		Wider Dissemination ²	
	EMN NCP Austria	No	This EMN NCP has provided a response to the requesting EMN NCP. However, they have requested that it is not disseminated further.

¹ If possible at time of making the request, the Requesting EMN NCP should add their response(s) to the query. Otherwise, this should be done at the time of making the compilation.

² A default "Yes" is given for your response to be circulated further (e.g. to other EMN NCPs and their national network members). A "No" should be added here if you do not wish your response to be disseminated beyond other EMN NCPs. In case of "No" and wider dissemination beyond other EMN NCPs, then for the Compilation for Wider Dissemination the response should be removed and the following statement should be added in the relevant response box: "This EMN NCP has provided a response to the requesting EMN NCP. However, they have requested that it is not disseminated further."

The Immigration Office has published a general guide to migration and asylum procedures on its website, which includes pages dedicated to the procedures for LTR status by third-country nationals residing in Belgium and for authorisation to stay by third-country nationals having obtained LTR status in another EU member state. These pages provide information on the application procedure, access conditions (related in particular to the calculation of the 5 year period and the requirement of stable, regular and sufficient resources), right to return, loss of status and exclusion (available in French at https://dofi.ibz.be/sites/dvzoe/FR/Guidedesprocedures/Pages/default.aspx).</p> <p>6. b. At the moment when the TCN is informed that s/he has to renew his/her residence permit When the third-country national renews his or her residence permit, the municipality may advise him or her to submit an “annex 16”, i.e. an application form for authorisation to settle (on the basis of national legislation, see Q7) or LTR status (see attachment). annexe_16.pdf</p> <p>7. In Belgium, a parallel national “authorisation to settle” exists (Art. 14, 15 Immigration Act, available in French at http://www.ejustice.just.fgov.be/eli/loi/1980/12/15/1980121550/justel). A third-country national can choose to apply either for this authorisation to settle or for the EU long-term residence status. If s/he applies for LTR status, the application is automatically regarded as an application for authorisation to settle as well (Art. 16 Immigration Act). If s/he does not meet the criteria for LTR status, the Immigration Office needs to assess if s/he fulfils the conditions for authorisation to settle (see attached Circular letter of 14 July 2009 regarding long-term residence status).</p>

			<p>5. The website of the Finnish Immigration Service includes information about every category of residence permits. So, there is also information about for example access conditions and right to work regarding LTR-permit. There is also a section at the website concerning cancellation of residence permits. The section includes information about the possible cancellation of the LTR-permit.</p> <p>6. c. There is no particular moment TCN:s who's residence permit is about to expire should visit the website of the Finnish Immigration Service or contact the Immigration Service using other channels (phone, e-mail). When they do that, they will be informed about the options they have regarding their residence, including LTR-permit. In Finland the whole system is based on the idea that foreigners themselves are responsible for their residence and the legal processes it requires. Responsibility of the public officials is to provide comprehensive and practically useful information in order to enable the foreigner to make the necessary choices and actions.</p> <p>7.
